See overleaf for guidelines on faecal sampling

'The European Agricultural Fund for Rural Development: Europe investing in rural areas'.

BEEP-S SCHEME

FAECAL SAMPLING GUIDELINES

1. Place 10 cows in a clean pen. Using gloves, collect faecal samples from 10 fresh faecal deposits and place them in the 10 sample containers provided – (you must collect at least a heaped teaspoonful size faecal sample from each faecal deposit).
 - a) Rectal samples can be collected directly into a sample container or
 - b) If rectal samples are not possible - animals should be closely observed and faeces picked up off the ground as soon as they are passed and placed into sample pot.
2. Place all filled sample containers in the zip lock bag provided.
3. Post samples with this form on the day of sampling, or the following day at the latest. If samples are collected at the weekend store them in a cool place preferably in a fridge not used for domestic purposes. (DO NOT FREEZE OR PLACE IN DIRECT SUNLLIGHT) and post on Monday.
4. Samples are to be sent to the following address: (Address Label included)

BEEP-S SCHEME, Animal Health Laboratories Ltd, Shinagh House, Dunmanway Road, Bandon, Co. Cork

RESULTS OF FAECAL EGG COUNTS

1. Results will be reported to the email address which you have provided overleaf.
2. Please discuss your fluke results with your agricultural adviser/veterinary surgeon when drawing up an appropriate fluke control programme.
3. Animal Health Laboratories will also report your faecal results and information provided overleaf to DAFM.

PAYMENTS

1. A charge of €25 including VAT (this includes provision of materials for sampling)
2. Payment to be received by AHL prior to sample testing.
